

Word in Life Ministries

Spring 2023

Family, Friends & Partners:

Minnesota is finally looking like Spring! We welcome you Spring! Most of the snow has left, but we know because we live in this state, that we could get some surprize attacks. It is with the enemy. He hits us when we least suspect it. My word for you in this Newsletter is “be on guard and know the enemy’s tactics.” He comes to steal, kill, and destroy. (John 10:10). Being connected to the source of life and hearing His voice changes everything. We get the inside story when we are connected to the vine.

I’ve been doing a Bible Study with my zoom class on Tuesday afternoon called “Hearing God.” It is by Barry Bennett. God designed it that every man can hear His voice, but it is only those that attentive to Him will hear the deep things that God wants to reveal. What are you focusing on? The daily news, the gossip columns, the cares of this world are they taking over your thought life? If so, be on guard to keep your relationship with God tight. Make time for Him every day and speak what He speaks, think what He thinks and act the way He acts. That is FAITH. We are faith people serving a faith God. That’s how He operates and that is how we should be operating.

Juliet & Raymond

Sandy and the “Hearing God” study

By faith, I am stepping out this year to expand my zoom classes. I see that there is a desire for different subjects to be presented and because of that I want to expand them to fit in more of a diverse group. I believe that the Lord is wanting me to reach out more to the media so I can cover more people. The thoughts are to do interviews with those that I do my zoom classes with so people can become aware of the importance it is to get involved in Bible Studies in their own areas. Being a doer of the Word of God is vital important especially the times we are living in.

LaVern and I will be going to our granddaughter’s, Juliet Bowlin’s, wedding in April. We plan on taking off the 18th of April and may stop by a couple of the missions on the way there and back. Our thoughts are just visiting them but if they have openings, we might speak a night.

May this letter find you full of faith, full of God’s promises and full of expectations!

Love & Joy in the Holy Spirit,

LaVern K. & Sandra L. Burdick
